Hi Stephanie.

Thanks for contacting NetSmartz! Yes, please feel free to visit our "educator only" page, [www.NetSmartz.org/education](http://www.NetSmartz.org/education) and download any resources (videos, safety pledges, activity cards) for free that you think may be appropriate. We only ask that you follow the copyright policy, [www.NetSmartz.org/legal](http://www.NetSmartz.org/legal), which basically states that you need to give NetSmartz credit, you may not alter the material and you may not sell it. I hope this has been helpful. If you have any further questions, please don't hesitate to contact us again.

Elizabeth Armstrong  
NetSmartz Staff Assistant

Topic: Parents or Educators Inquiry

I am a technology facilitator with San Antonio ISD in Texas. I am currently working on revamping our online safety course for our district along with creating a brief professional development session for educators. Would it be possible to use some resources (videos, activities, etc.) in the curriculum and/or professional development? Hope to hear from someone soon. Thank you
